

IHGF Delhi Fair makes online move

Written on 26 April 2021.

In the light of the second pandemic wave hitting India, the organiser of IHGF Delhi Fair has switched to an online show.

The virtual event will retain the show's original 19-23 May dates.

More than 750 exhibitors will take part, covering more than 2,000 products.

'Keeping with the safety of its buyers as a major concern, EPCH - the organiser of IHGF Delhi Fair has decided to stall the enthusiastically planned physical show for May 2021 and opt for the virtual mode. This would continue the sourcing cycle for buyers uninterrupted and capture global opportunities for manufacturers in India. It could be disappointing for the buyers who had pre-registered for the physical show. EPCH assures them of a splendid physical show at the plush India Expo Centre & Mart, in the near future,' says a statement.
